- VI. Old Business.**
- A. Continued Discussion on Possible Survey of Licensees.** The Executive Director reviewed draft questions for a survey of licensees, noting that some Advisory Committees thought it would be useful to provide a definition of “frontier areas,” which is a population density of fewer than six people per square mile. For the question that asks how much time is being spent on direct services, “using your LMLP or LCP license” was added to the end of the question. The survey should be sent out before the next Advisory Committee meeting.
 - B. Continued Discussion on Regulation of Artificial Intelligence.** The Board plans to discuss this topic in the future but first referred it to the Advisory Committees for discussion. One question is whether the Board should approach this topic from

an unprofessional conduct or practitioner direction standpoint. A question on artificial intelligence has been included in the survey to collect information about how practitioners are using that type of technology.

- C. **Continued Discussion on Adding a Description of Each Profession to BSRB Website to Inform Public of the Differences Between the Professions.** The BSRB is seeking to add a general description of each profession to the BSRB website. Possible information to include in this description include typical work setting(s), type(s) of service(s) provided, education requirements, whether the license type and level can diagnosis independently or under supervision, et cetera. Iris Pauly volunteered to draft a description for the LCP license and Kari Wold volunteered to draft a description for LMLP license. These drafted descriptions will be reviewed at the December 2024 Advisory Committee meeting.

VII. New Business
